

# Belmont Primary School iPad Program

## R<sub>1</sub> e<sub>1</sub> q<sub>10</sub> u<sub>1</sub> i<sub>1</sub> r<sub>1</sub> e<sub>1</sub> d<sub>2</sub> A<sub>1</sub> P<sub>3</sub> P<sub>3</sub> S<sub>1</sub>

### Term 1, 2019 - 3/4 Area

Attached are the Term 1, 2019 required iPad apps for students in Grades 3 and 4.

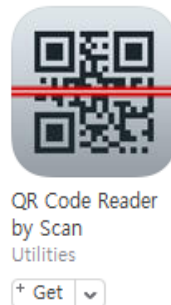

Other than the steps for the first app (below), all you have to do is scan the QR code to download the relevant app!

#### STEP 1

Download the first app which is called "QR Code Reader by Scan". Once it is installed, you can use it to scan the supplied codes to go directly to the preferred app and its download point.

To do this:

1. Open your app store and search for "QR Code Reader".
2. The image below shows one of the free options, from a company called Scan.
3. Tap on it and select download.

#### STEP 2

Once this has been done, you can use this app to scan the QR codes to access the exact apps that are required.

To do this:

1. Scan QR code
2. Download the app!  
(If you are having trouble scanning the correct QR code, cover up the other codes on the page) 😊

At the beginning of next year, we will also provide details of any paid apps that are required for 2019. The *total cost of paid apps* for the year will be approximately \$20. Please see our staff if you have any questions about this.

	<p>Price: Free</p>	<p><b>Google Classroom</b></p>  <p>Students join an online classroom allowing teaching staff to distribute learning resources.</p>
	<p>Price: Free</p>	<p><b>Google Drive</b></p>  <p>Students each have a secure, cloud based storage for saving and sharing work.</p>
	<p>Price: Free</p>	<p><b>Google Docs</b></p>  <p>Online option for word processing.</p>
	<p>Price: Free</p>	<p><b>Google Sheets</b></p>  <p>Online option for spreadsheeting.</p>
	<p>Price: Free</p>	<p><b>Google Slides</b></p>  <p>Online option for creating presentations.</p>
	<p>Price: Free</p>	<p><b>Google Translate</b></p>  <p>Translate text between 103 languages.</p>
