

Belmont Primary School
PARENT PAYMENTS POLICY

Dear Parents/Guardians,

Belmont Primary School is looking forward to another great year of teaching and learning and would like to advise you of Belmont Primary School's voluntary financial contributions for 2024.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our school can offer the best possible education and support for our students. We want to thank you for all your support, whether that's through fundraising or volunteering your time. This has made a huge difference to our school and the programs we can offer.

Within our school this support has allowed us to provide an enriched teaching and learning program for every student that is highly valued by our school community. The commitment and high-level support of voluntary contributions from parents benefits our students and community and results in improved achievement outcomes, wellbeing and engagement in learning. The support of our community through the voluntary contributions allows us to ensure every student has access to the same classroom supplies and learning materials throughout the year and that our school has been able to provide enriched learning opportunities through programs such as Literacy Intervention, robotics in STEM and supporting every student to access the Years 3-6 *Bring Your Own Device Program*. The continued development of the buildings, grounds and varied play spaces has also been possible due to the tremendous support we receive from the community in making the contributions for student owned learning materials and requisites.

At Belmont Primary School, we design and develop teaching and learning programs that continue to draw upon best educational knowledge and practice and our teachers strive to offer broad and enriched programs to students that are above and beyond what is in the standard curriculum and what is provided for by Government funding.

Educational Items for students to own

Attached is a list of items that the school will purchase on your behalf for your child to individually own and use to learn the standard curriculum. These packs will be directly delivered to school prior to the commencement of the 2024 school year. Belmont Primary School makes every effort to keep the cost of items and activities to a minimum and affordable for all parents.

Financial Support for Families

Belmont Primary School understands that some families may experience financial difficulty and offers a range of support options, including:

- Camps, Sports and Excursions Fund (CSEF) provides payments to eligible students to attend camps, sports and excursions. Families holding a valid means-tested concession card or temporary foster parents are eligible to apply and a special consideration category also exists.
- Payment plan options for extra-curricular items and activities such as camps, swimming program and excursions/incursions.
- State Schools Relief may cover the cost of new school uniforms, shoes, books and more for eligible families. Parents or Carers who require assistance are encouraged to make an appointment with the school to discuss their situation.
- Belmont PS Pay It Forward Fund – for families experiencing extenuating circumstances or hardship, voluntary contributions made by the community allow the school to support families who need assistance with the cost of camps, excursions, incursions or swimming. This is managed by the Principal.

For a confidential discussion about accessing these services, or if you would like to discuss alternative payment arrangements, contact: **Kelly Wilde (Business Manager)** Ph:03 52432972 Email: belmont.ps@education.vic.gov.au
